BECOMING PARTNER...

... is encouraging our youth to learn science and technology through the use of educational robotics.

... is contributing to the organization of a unique robotic event for hundreds of student from kindergarden to College!

ABOUT ZONE01 ROBOTICS

Zone 01 Robotics is a not for profit organization that is creating and developing since 2008 a program of educational robotics that culminates in a grand unifying event, where students and their robots compete for medals with pride.

Our robotics experts design unique technical challenges around a theme and support teachers and schools in their implementation in class or as an extracurricular activity. Zone01 Robotics website is an essential training resource for robotics fans.

UNIFYING EVENTS!

Zone 01 is organizing in March 2015 the 8th Provincial Final of Educational Robotics at La Tohu of Montreal. During this 2-day event, over 200 teams will present the result of their work, unique robotic creations.

The best robotics teams will be selected to represent Canada at the International Final of the World Robot Olympiad (WRO). This year, the WRO Final will be held on November 6-8 in Doha, Qatar. It will be an unforgettable experience for these geniuses in training!

In April 2015, two new regional events will also take place in Quebec City and Toronto. Zone01 Robotics wants to recreate at these events the same atmosphere that made its growing success in Montreal for the past 7 years.

These exciting events all open to public are presented in front of referees and judges who will award performance and design medals to the winners.

BECOMING OUR PARTNER FOR OUR EVENTS

Listed below are various available sponsorship options for you to consider. Do not hesitate to contact us if you need more information about our organization. To view pictures and videos for our past events, please visit www.zone01.ca in the section «Events» and «Archives»

MONTREAL FINAL
